

K - 6 Make n Take Workshop

This is a hands-on workshop for Kindergarten to Grade 6 teachers usually for specific grade levels (i.e. Grade 1) but it can be tailored to meet the needs of the group. The morning begins with a First Nation's Elder talking about his/her worldview both historical and contemporary; followed by time is spent going through the Themes and Topics matrix from K - Grade 6. The teachers are asked to work in groups to develop a step by step lesson in any subject area using the craft materials available. They use the K - Grade 6 Treaty Resource Guides for their specific grade level. Those teachers that prefer to create a role-play or simulation lesson have that choice. Plenty of time is given to teachers. The lessons are shared with the group then added to OTC wiki space online. An additional objective is to have fun while learning about treaties.
